Bringing Everyone to the Table
To Build a Better Community

Our MISSION

A community of partnerships with common goals addressing the challenges facing Bartow County's children and families.

Our VISION

Bartow Collaborative engages community partners to promote healthy, educated and self-sufficient children and families.

Our CORE VALUES

- Strong families make better communities. We advocate for community programs and processes that enhance the quality of life for children and families.
- Together, we can do more. We honor diversity of professionals involved in the process, utilizing differences as strengths.
- Self-sufficiency is empowering. We match resources to needs, share information, and leverage funds to empower rather than enable.

Our PROCESS

Bartow Collaborative builds formal and informal networks in the public-private and nonprofit sectors to leverage resources, facilitate communication, maintain relationships and reduce duplication efforts.

Bartow Collaborative, Inc. fosters shared knowledge by bringing community partners together to develop, implement, and evaluate a plan that addresses the serious challenges facing children and families in Bartow County.

Bartow Collaborative provides a framework of support, including a Board of Directors, general Collaborative participation, agency representation, and local stakeholders.

Homelessness

Provide support and services to homeless children and their families to increase academic achievement.

Target Population: Homeless students and families of homeless students in the Cartersville City and Bartow County School Systems.

Teen Pregnancy

Provide an array of prevention programs and services to middle and high school students and their parents that will reduce teen pregnancy, decrease STDs and HIV, and eliminate the risk of violence and/or exploitation.

Target Population: Students grades 5-8; teens and their parents.

Mental Health & Addictive Disease

Sustain and enhance existing mental health prevention and addiction support services for children and adults to foster achievement and self-sufficiency.

Target population: Birth to age 23

Our STRATEGIES
